

# HIKARI JAPANESE ACADEMY

## Japanese Language and Cultural Education

**Let's Learn Japanese** is intended for young teens who are motivated to learn and speak Japanese. Classes will emphasize Japanese conversation along with learning to read and write hiragana and katakana. Classes will be limited to 8 students. We believe that two short sessions per week is more effective to learn Japanese rather than one longer session each week...plus, students will have Saturdays to participate in the many other activities that they love!

On occasion, we hope to schedule fun outings to complement learning, such as visits to museums, Little Tokyo, gardens, a Dodgers game, class picnics and any other ideas the students may have.
